

# Interior furnishing 2014

Inspiring innovations, facilitating care giving.

**.bock<sup>®</sup>** ///

## Room concepts to feel comfortable: ideal for professional care.

The Hermann Bock GmbH is based on care giving: Since the 70s we have manufactured ergonomic lying surface systems and since 1992 complete interior furnishing systems for institutions. We have the experience. And we know what is needed today in practice: harmonic room concepts that ensure comfortable living and professional care at the same time!

The convertible nursing care bed practico alu 25/80 belongs to the new product developments of our engineers. One bed for all circumstances, that combines technical functionality and cosiness. Due to the new design of the bed and the castor covering, the bed is an eye-catcher. Sophisticated technique in detail: the practico alu 25/80 can be extended without tools and therefore it can be adjusted to the patient's individual needs. This is so easy: the full-ergonomic, real bed extension is inserted in no time at all. The side rails are foreseen to fit all lengths. The result: comfort everywhere!

### ► Save time and costs:

In no time at all you can extend the practico alu 25/80 by 20 cm – without the arduous exchange of side rails. Of course without tools, including perfect fitting extension made of high-quality aluminium.

## The trade fair highlight 2014: practico alu 25/80!

- /// Real bed extension:  
ready-to use- in no time at all without replacement parts and tools
- /// A side rail that grows
- /// Height adjustment range of 25/80 cm
- /// Comfort and technique ideally combined

### ► Fully developed and perfect visual appearance:

The telescopic side rails for standard as well as special lengths.

### ► Pressure relief, economic and hygienic:

Individual patient configurations of the springs completely without tools, ideal ventilation, no absorption of humidity, long life time: the lying surface system ripolux® neo is perfect for tall, small, heavy and light-weight patients. This facilitates the disposition of beds, accordingly.

## Development work, handcraft work, high class workmanship: from the lying surface to functional design elements up to the hand- control.

.bock interior furnishing offers a wide range of styles, and variety for custom-made production, additional functions and optional accessories.

Our team works continuously on sophisticated solutions to facilitate in a well-directed way, the everyday care. Therefore we are in discussion with professional care givers - and we take the feedback seriously!

The result: quality, functionality, comfort and open systems, with which you are set up ideally for today and which gives you all possibilities for the future. No matter if you would like to upgrade or retrofit, or even change the fronts or colours!

## An all-purpose bed: practico alu 25/80.

/// Intelligent LED - light system

/// Made of hygienic aluminium

/// New castor covering

/// End panels with a new design

### ► Modern and exquisite designs:

You choose from different end panels. Available are elegant wood - aluminium combinations and solid wood end panels. Every type of end panels is available with a bedclothes deposit and wall protection castors.

### ► Intelligent light system:

On top of the bed for reading, below the bed for maximum safety: The LED light systems creates a clear light and helps with the orientation. They are connected to the lying surface motor and controllable by the handcontrol. A further mains supply is not needed - no more cable tangle.

### ► Design and functionality in perfect harmony:

The covering of the castors has a classy style and is particularly stable for the transport of the patient. At the same time the covering is well-thought combined with the central braking, which brakes all four double castors safely.

## Classic variety: staying, living, to be comfortable

Furniture from .bock has style and creates a pleasant ambience. In line with our bed system practico alu 25/80, we have set up a product range that leaves nothing to be desired. Functional wardrobes and shelves as well as tables, sofas, armchairs and stools are part of it.

Thereby harmonious concepts can be realised: logical and ideal also for high-class requirements. Our sales team and interior designers are pleased to give you advice and are happy to visit you and get an idea of your rooms!

► The sofa and armchair collection "Daisy" is characterized by comfortable upholstery as well as a multiplicity of fabrics and wooden colours. All materials are hardly inflammable.

► The sofa and armchair collection "H" intrigues by clear and classy lines and offers high sitting comfort.

► Our product range includes different bedside cabinets and practical servers for maximum comfort and support for reading, eating and more.

► We deliver our furniture in all standard dimensions and of course in special sizes. A variety of different colours offers countless possibilities for highly individual room concepts.
